

Invitation to Collaborate Online

Are your students creating
digital portfolios next year??

Would you like them to be part of an
online learning community to enhance the
portfolio development process??

Grade 9 students at the International School Dhaka, Bangladesh
will be developing digital portfolios and would like to invite other
students from around the globe to collaborate online.

Through online discussion forums and the opportunity to interact
students can exchange ideas, complete assignments, peer assess
and support each other with the development of their individual
portfolios.

See what Grade 9 students at ISD have done this year at:

Student Digital Portfolios: <http://www.isdweblogs.org/studentdp>

Digital Portfolio Weblog: <http://www.schoolblogs.com/isdweblog/>
